Course size
(nominal values; actual values may depend on programme)

Credits 3.0  Study time 75 h  Contact hrs 10.0 h

Course offerings in academic year 2017-2018
A (year)  Dutch

Lecturers in academic year 2017-2018
Joos, Guy  GE01  lecturer-in-charge
Maes, Tania  GE01  co-lecturer

Offered in the following programmes in 2017-2018

| Master of Science in Biomedical Sciences | 3 | A |

Teaching languages
Dutch

Keywords
Translational Biomedical research, Scientific presentations, Clinical research

Position of the course
Via the Medical seminars which are given throughout the first master year, the student is brought into an active contact and interaction with medical doctors and researchers from scientific, medical and pharmaceutical sciences and from health care in general. Through these contacts the student is stimulated to follow the evolutions and recent developments in biomedical sciences.

Contents
The student has to attend eight seminars chosen from a selected offer of seminars organized by research groups, departments and clinical departments of the Faculty of Medicine and Health Sciences, of (inter)national congresses and/or presentations by international guests.

Initial competences
Bachelor in biomedical sciences or having acquired the relevant ending objectives by other means.

Final competences
1. To be able to critically evaluate medical-technological and scientific information.
2. To be able to report about relevant medical-technological and scientific data and about new insights in the biomedical sciences in a systematic, critical and clear way.
3. To be able to critically evaluate medical-technological and scientific information.

Conditions for credit contract
Access to this course unit via a credit contract is determined after successful competences assessment

Conditions for exam contract
This course unit cannot be taken via an exam contract
