Keywords
Global ethics
Global justice

Position of the course
This course builds upon the thorough introductions to ethics provided in the 3 BA years. As far as its contents are concerned, it aims at acquiring knowledge of a recently established and strongly flourishing domain within theoretical and practical ethics. With regard to skills, the course strives to develop heuristic skills to be applied independently by the students. As far as attitudes are concerned, this course aims to stimulate global responsibility.

Contents
The possible orientations and contents of a global ethics.
Implications of globalisation for individual responsibility.
Specific case studies of current societal problems linked to globalisation (inter alia commodification and commercialisation of human beings and their body parts; climate change and the environmental crisis).

Initial competences
Understanding the basic concepts, central approaches, theoretical frameworks and important developments in ethics.

Final competences
1. Understanding the complexity of the problems facing a globalised world with regard to moral values and norms.
2. Being able to assess publications relevant to global ethics and global justice (in academic journals as well as media reports) as regards their relevance, strength of argumentation, and scientific evidence base.
3. Knowledge of key sources regarding globalisation, world ethics and world politics.
4. Being capable of understanding, critically commenting and independently applying general theoretical approaches and specific arguments in the field of global ethics.
