Keywords
Surgery

Position of the course
This course aims to continue the acquisition of more specialised medical knowledge, to develop problem solving capacity and to apply it in practice.

Contents
The trainee gains basic knowledge in a broad number of fields within the speciality necessary for the applications in practice. The content that will be dealt with, is related to the learning outcomes.

Topics: such as by the RBSS

Initial competences
The course builds on certain learning outcomes of the study programme leading to the academic degree "Master of Medicine (in Medicine)" (or "Physician" or "Doctor of Medicine, Surgery and Obstetrics").

Final competences
1 Acquiring a deeper knowledge and insight in the syndromes and techniques in the field of the speciality.
2 Developing an in-depth specialised scientific knowledge and methodology necessary as substructure for the problem-solving ability at the work place.

Conditions for credit contract
Access to this course unit via a credit contract is determined after successful competences assessment

Conditions for exam contract
This course unit cannot be taken via an exam contract

Teaching methods
Lecture

Extra information on the teaching methods

(Approved)
Also self study

Learning materials and price
  Current Diagnostics and Treatment Lange (14th Edition) (80 Euro)
  Clinical Anatomy, H. Ellis, V. Mahoedevar (50 Euro)
  Hand-outs / powerpoint presentation
  Leerboek Chirurgie, H.G. Gooszen (121 Euro)
