Course Specifications

Valid as from the academic year 2015-2016

Course size
(nominal values; actual values may depend on programme)

Credits 5.0  Study time 125 h  Contact hrs 30.0 h

Course offerings and teaching methods in academic year 2018-2019

A (year)  Dutch  work placement  30.0 h

Lecturers in academic year 2018-2019

Van der Meeren, Paul  LA24  lecturer-in-charge

Offered in the following programmes in 2018-2019

Master of Science in Bioscience Engineering: Forest and Nature Management 5  A
Master of Science in Bioscience Engineering: Cell and Gene Biotechnology 5  A
Master of Science in Bioscience Engineering: Chemistry and Bioprocess Technology 5  A
Master of Science in Bioscience Engineering: Agricultural Sciences 5  A
Master of Science in Bioscience Engineering: Land and Water Management 5  A
Master of Science in Bioscience Engineering: Food Science and Nutrition 5  A
Master of Science in Bioscience Engineering: Environmental Technology 5  A

Teaching languages

Dutch

Keywords

Training

Position of the course

The aim is to give students the opportunity to be confronted with practical working situations outside the academic world. At the same time it is a training in how to adapt to new situations.

Contents

The training is done in industries or companies not related to the university. Students will be engaged in normal working activities at a level corresponding to their final degree. After finishing the training students will write a report and the report will be defended for a jury. In the report students will pay attention not only to the practical work they performed but also to aspects such as the economic position of the company, the strategy and management of the company etc.

Initial competences

Final competences

1. acquire a better insight into the labour market
2. to accomplish a well-defined task in an independent way
3. to write a technical-scientific report
4. to orally present and defend a written report
