Position of the course

The aim of the internship is to give students the opportunity to carry out specialized work in a domain of their interest, which is not offered by the programme.

Contents

The course ‘Internship’ covers a training period of minimum 24 working days in a workplace, other than the educational institute where the student is, or has been registered in the past. This training shall be conducted in a research domain related to the study programme ‘Environmental Sanitation’, or in the framework of environmental service-oriented activities.

The topic of this internship is chosen in consultation with an academic promoter of UGent. Students will be engaged in every-day working activities at a level corresponding to their final degree.

The internship results in a scientific report that should be public defended in front of a jury.

Initial competences

Advanced knowledge on the specialization field, typically acquired by obtaining minimum 40 credits in the programme ‘Master of Science in Environmental Sanitation’

Final competences

1. Reflect critically on the experience gained
2. Integrate and participate in the day-to-day-activities of the work-place
3. Give a scientific account of the experience gained in the form of a ppt-presentation and a scientific report
4. Analyse the workplace and the activities it undertakes within its economical, managerial context
