### Lecturers in academic year 2018-2019

| Smagghe, Guy | LA21 lecturer-in-charge |

### Offered in the following programmes in 2018-2019

| Master of Science in Bioscience Engineering: Cell and Gene Biotechnology | 5 | A |

### Teaching languages

- Dutch

### Keywords

- Position of the course
- Contents
- Initial competences
- Molecular Entomology build on certain learning outcomes of course units of Zoology I: invertebrates; Biochemistry and Molecular Biology, Microbiology, Cell Biology, Protein Chemistry; or the learning outcomes have been achieved differently.

### Final competences

### Conditions for credit contract

Access to this course unit via a credit contract is determined after successful competences assessment

### Conditions for exam contract

This course unit cannot be taken via an exam contract

### Teaching methods

Guided self-study, demonstration, lecture, microteaching, practicum, seminar

### Learning materials and price

### References

### Course content-related study coaching

### Evaluation methods

(Approved)
end-of-term evaluation and continuous assessment

Examination methods in case of periodic evaluation during the first examination period
   Written examination, oral examination, report

Examination methods in case of periodic evaluation during the second examination period
   Written examination, oral examination, report

Examination methods in case of permanent evaluation
   Written examination, oral examination, report

Possibilities of retake in case of permanent evaluation
   Examination during the second examination period is possible

Calculation of the examination mark
   Students who eschew period aligned and/or non-period aligned evaluations for this course unit may be failed by the examiner.
