Trefwoorden

Internship, training

Situering

The course Internship 1 covers a training period of minimum 20 working days in a workplace domain-related to the educational program of the student: other than the educational institute where the student is, or has been registered in the past, other than the work environment of internship 2 if applicable, other than the work environment where he/she has worked as employee or intern or researcher in the past. The course can only be taken up in the second year, even if the training would take place during the summer holidays of the first academic year.

The student will be engaged in every-day working activities at a level corresponding to their final degree. Upon completion of the internship, the student will write a report and the report will be defended for a jury. In the report students will pay attention not only to the practical work they performed but also to managerial, economical and strategic aspects. The report also includes a general appreciation of the internship experience by the student and a critical reflection on the how well the programme learning objectives have prepared the student for the internship.

Inhoud

Internship: can take place in diverse work environments: (inter)national NGOs, institutes such as WHO, FAO, EU, World Bank, BTC, etc., universities, research centra, ... or in private sector (industries, ...)

The internship activities should be related to the knowledge and know-how acquainted through the specific study program for which the student is registered and should give an added value for future (search) possibilities for a (more relevant) job....

Begincompetenties

Advanced knowledge, skills and competences in their field of specialisation, acquired by participating to the exams for min. 30 credits in the specific program of one of the 3 main subjects of the MSc. in Nutrition and Rural Development.

Eindcompetenties

1 Integrate in the working environment and participate in the day-to-day-activities of

- the internship environment and reflect critically on the experience gained.
- 2 Write an account of the experience gained in the form of a scientific detailed report and a compact presentation followed by a discussion.
 - 3 Critically analyse the workplace internship organization with reference to its diversity of activities within the local economical, managerial and strategic context.
