Course content-related study coaching
   Consultation of lecturer (appointment or via email)

Evaluation methods
   continuous assessment

Examination methods in case of periodic evaluation during the first examination period

Examination methods in case of periodic evaluation during the second examination period

Examination methods in case of permanent evaluation
   Portfolio

Possibilities of retake in case of permanent evaluation
   examination during the second examination period is possible

Extra information on the examination methods
   If the trainee has not followed at least 14 h accredited activities during year 3 of the residency, during year 4 of the residency and during year 5 of the residency or if these activities are not archived in the portfolio, the trainee can not be evaluated for the course “Scientific research in otorhinolaryngology, head and neck surgery, part 2”.
   1 hour followed I@home activity is equivalent to 1 accreditation point.

Calculation of the examination mark
   In order to successfully complete this course at least 42 h accredited activities (14 h accredited activities followed during year 3 of the residency + 14 h accredited activities followed during year 4 of the residency + 14 h accredited activities followed during year 5 of the residency) have to be archived in the portfolio.
   Subsequently, a “pass” / “fail” result is given.
