Course Specifications
Valid as from the academic year 2018-2019

Course

Lecturers in academic year 2019-2020
Verstraete, Koenraad
Defreyne, Luc
SMEETS, PETER
Villeirs, Geert

Offered in the following programmes in 2019-2020
Master of Medicine in Specialist Medicine (main subject Radiology)

Teaching languages
Dutch

Keywords
Radiology, radiography, radioscopy, CT-scan, ultrasound, Magnetic Resonance imaging, positron-emission tomography, medical imaging, angiography, interventional radiology

Position of the course
This course aims to continue the acquisition of more specialised medical knowledge, to develop problem-solving capacity and to apply it in practice.

Contents
The trainee gains basic knowledge in a broad number of fields within the speciality necessary for the applications in practice. The content that will be dealt with, is related to the learning outcomes.
Topics:

Initial competences
The course builds on certain learning outcomes of the study programme leading to the academic degree "Master of Medicine (in Medicine)" (or "Physician" or "Doctor of Medicine, Surgery and Obstetrics").

Final competences
1. Acquiring a deeper knowledge and insight in the syndromes and techniques in the field of the speciality.
2. Developing an in-depth specialised scientific knowledge and methodology necessary as substructure for the problem-solving ability at the work place.

Conditions for credit contract
Access to this course unit via a credit contract is determined after successful competences assessment.

Conditions for exam contract
This course unit cannot be taken via an exam contract

Teaching methods
Guided self-study, lecture

Learning materials and price
- Interuniversity postgraduate teaching
  powerpoint presentations of lectures of the interuniversity postgraduate teaching
- Selection of articles from Radiological journals (Radiology, European Radiology, European Journal of Radiology, American Journal of Radiology, Clinical Radiology, ...)
- E-learning via electronic learning platform

Recommended books (not obligatory to buy):
• Radiologische atlas deel 3: abdominale beeldvorming
  Vanbekevoort D.
  Helicon 2002
• Gastrointestinal radiology: a pattern approach 4/e
  Eisenberg R.L.
  Lippincott Williams & Wilkins 2002
  isbn 0.7817.3706.0
• Imaging of diseases of the chest 4/e
  Hansell D., Armstrong P., Lynch D., Mc Adams H.
  Mosby 2005
  isbn 0.3230.3660.0
• Computed Tomography of the Lung: A pattern approach
  J.A. Verschakelen, W. De Wever
  Springer 2007
  isbn 10 3-540-26187-7
• Genito-urinary radiology: the requisites
  2nd Edition
  Ronald J. Zagoria
  Elsevier Mosby 2004
• Bone and joint imaging 3/e
  Resnick D.
  W.B. Saunders Company 2005
  isbn 0.7216.0270.3
• Requisites, Musculoskeletal imaging, sec ed.,
  BJ Manaster,
  Mosby 2002,
• Fundamentals, skeletal radiology, sec ed.
  Clyde A Helms,
  W.B. Saunders, 1995
• Fundamentals of pediatric radiology
