Teaching languages

Dutch

Keywords

Dutch as foreign language, LSP, economic, business, language acquisition, grammar, vocabulary, communicative skills

Position of the course

The students acquire complex communication skills in Dutch in an economic and business context.

The course will enable the students to further practise their Dutch language skills in an economic setting. In such it also contributes to a positive integration of non native speakers into the academic education.

Contents

A task-oriented approach with focus on (feedback) talks and reports, minutes, meeting techniques and group management, preparing and executing a business-oriented research project, presenting source materials (facts and figures, graphs), giving instructions.

Throughout the year we pay attention to business and current affairs writing, which students present to each other.

Initial competences

The goals of Economic Dutch for non native speakers I.

Final competences

1. To acquire and be able to actively use more advanced economic vocabulary in Dutch.
2. To be able to write, read and understand complex economic texts in Dutch.
3. To be able to give extended presentations and take part in complex oral interactions in Dutch.
4. To be able to listen to, produce and understand longer business messages in Dutch.
