Strategic planning, competitor analysis, buyer behaviour, segmentation and positioning, marketing mix, controlling the marketing activities

Position of the course
The objective of this course is to establish a first and thorough acquaintance with the different aspects of marketing management. Attention will be paid to strategical as well as tactical aspects: which strategies can a company follow, and how can this strategy be translated in the right products and services, the right communication, the right price and the right distribution to excel on attractive markets? In addition, research methods that can contribute to making the right strategical and tactical choices will be discussed.

Contents
- The marketing process and marketing management concepts
- Organization and marketing strategy
- Marketing environment
- Buying behavior of consumers and companies
