Due to Covid 19, the education and evaluation methods may vary from the information displayed in the schedules and course details. Any changes will be communicated on Ufora.

Lecturers in academic year 2020-2021
- Dralans, Sophie LW02 staff member
- Docter, Roald LW02 lecturer-in-charge

Offered in the following programmes in 2020-2021
credits offering
- Bachelor of Arts in Archaeology 6 A
- Preparatory Course Master of Arts in Archaeology 6 A

Teaching languages
Dutch

Keywords
Work placement

Position of the course
This advanced course is part of the package 'Practica'; the main aim is to confront the student with the practices of archaeology, more specifically with fieldwork.

Contents
The students are confronted with the use of topographic instruments (leveling instruments, GPS,...) during a “measuring week” in the Spring. After that the students will have to search for one of more on-going professional excavation (or survey) projects (preferably in Belgium) where they are expected to participate in the fieldwork (min. 2 weeks).

Initial competences
To have successfully completed the course package 'Methodology 1' or to have acquired the necessary skills by other means.

Final competences
1 To participate actively to an excavation.
2 To be able to use the main topographical instruments.
3 To have insight into the chronology of fieldwork.
4 To have knowledge of the principles of field work.
5 To be able to register in the field.

Conditions for credit contract
Access to this course unit via a credit contract is determined after successful competences assessment

Conditions for exam contract
This course unit cannot be taken via an exam contract

Teaching methods
Work placement, fieldwork

Extra information on the teaching methods
Work placement: practical training in the field.

Learning materials and price

(Approved) 1
For measuring practices a syllabus is available on GEOWEB and via Minerva (no costs) Cost: 0 EUR

References

Course content-related study coaching
Personnel of the departments of Archaeology and Geography is available for daily follow up during these field practices.

Evaluation methods
continuous assessment

Examination methods in case of periodic evaluation during the first examination period

Examination methods in case of periodic evaluation during the second examination period

Examination methods in case of permanent evaluation
Report

Possibilities of retake in case of permanent evaluation
examination during the second examination period is possible

Extra information on the examination methods
Assessment form: Practical exercises (written and oral). For the “measuring week” there is written and oral reporting. For the archaeological part of the field practice only a written report is expected.

Calculation of the examination mark
Non-periodical: continuous assessment (100%)
