Keywords
financial organisation, fiscality, monetary politics

Position of the course
Allow the students to evaluate in a critical matter how financial and fiscal techniques and institutions have developed in both a practical and ideological way, in the context of cities, states, the Church and with private persons.

Contents
Overview of the evolution of financial institutions, book-keeping techniques and ideological background of fiscality and monetary politics. The course covers the following topics: city finances, states finances, church and private finances, credit, banking and insurance, debt management and book-keeping, and monetary history.

Initial competences
• Students should have a solid knowledge of social and economic history concerning the period under study.
• Students can work independently.

Final competences
1 Be able to demonstrate advanced knowledge of the main developments in financial and monetary history
2 Be able to use the terminology of financial and monetary history
3 Be able to orally report on the literature that has been read
4 Be able to critically apply the literature to specific cases, cases from practice and own research
5 Be able to make the link between the acquired knowledge of financial and monetary history and current developments in society
