Teaching methods
Practicum

Extra information on the teaching methods
This course can be followed by incoming (exchange) students. The sessions will be in Dutch, but are easy to follow by non-native speakers due to their practical nature. During the practical sessions the different skills and disciplines are shown and practiced. The theoretical basis of the skills and disciplines and the regulations of the sports are addressed during lectures. Injured students are expected to be present at the practical and theoretical sessions so they don't miss essential information.

Evaluation methods
continuous assessment

Examination methods in case of periodic evaluation during the first examination period

Examination methods in case of periodic evaluation during the second examination period

Examination methods in case of permanent evaluation
Written examination, participation, skills test

Possibilities of retake in case of permanent evaluation
examination during the second examination period is possible in modified form

Extra information on the examination methods
- There are a number (3 to 5) of evaluations (of techniques, performance and theory/regulations) during the academical year.

(Approved)
• Attendance to the practical sessions is required. Illegitimate absence in more than 20% of the practical sessions of one sport will automatically result in a FAIL for this course.

Calculation of the examination mark

**Per discipline/sport**: the mark is calculated by weighing the marks for the practical part and the mark for the theoretical part. The relative weight of mark on the practical part (80%) is larger than for the theoretical part (20%). A mark below 9/20 on the practical part or on the theoretical part will be sanctioned.

In case of a mark < 9/20 for either the theoretical part or the practical part, both parts have to be retaken.

**Total course**: The total mark on this course is the average of the marks for football, handball, basketball and volleyball.

When a student does not take part in one or more of the evaluations, or when the student is illegitimately absent in more that 20% of the practical sessions, he/she is unable to pass this course. If this is the case and if the total mark is > 10/20, the total mark will be adjusted to 9/20.

Addendum

This course is open for incoming mobility students (Erasmus)
