Offered in the following programmes in 2020-2021

| Bachelor of Science in Physical Education and Movement Sciences | 7 | A |
| Exchange Programme Physical Education and Movement Sciences | 7 | A |

Teaching languages
Dutch

Keywords
Sports, football/soccer, team handball, basketball, volleyball

Position of the course

This course addresses the advanced technical and tactical skills in football, team handball, basketball and volleyball according using a game-based approach. This course is based on the course Interactive Movement Activities I. This course aims for fluent team play in specific game-like situations and small-sided games using the appropriate technical and tactical skills. The final intended level is the actual game format for all disciplines (e.g. volleyball: 6 vs 6; basketball: 5 vs 5).

Within the general competence model (of bachelor in physical education and movement sciences), this course contributes to the movement competencies, especially to the interactive movement activities.

To perform the required skills in a satisfactory manner, the student is expected to maintain an adequate level of physical fitness.

Contents

Advanced technical and tactical elements in soccer, basketball, volleyball and team handball (including theoretical underpinnings).

Initial competences

Final competences

1. Be able to perform basic and more advanced technical and tactical skills related to handball, football, basketball, and volleyball.

2. Be able to perform a qualitative analysis of the skills in handball, soccer, volleyball.

(Approved)
and basketball (including error detection and correction).

3 Be able to apply the basic and more advanced technical and tactical skills in specific game situations.
4 Show perseverance to practise the skills autonomously.
5 Be able to adjust behaviour based upon reflection.
6 Cooperative learning to achieve creative solutions.
7 Be able to apply the rules of handball, football, volleyball and basketball in a game.

8 To take into account the safety regulations when playing these sports.
9 To possess the physical characteristics required to perform the different movements/sports.

Conditions for credit contract
Access to this course unit via a credit contract is determined after successful competences assessment

Conditions for exam contract
This course unit cannot be taken via an exam contract

Teaching methods
Practicum
Extra information on the teaching methods
This course can be followed by incoming (exchange) students. The sessions will be in Dutch, but are easy to follow by non-native speakers due to their practical nature.
During the practical sessions the different skills and disciplines are shown and practiced. The theoretical basis of the skills and disciplines and the regulations of the sports are addressed during lectures.
Injured students are expected to be present at the practical and theoretical sessions so they don't miss essential information.

Learning materials and price
- Voetbal:
- Handbal:
- Basketbal:
- Ingame: New Didactics in Teaching Invasion Games with Applications to Basketball and Team Handball (Online tool, geschatte prijs: 30 euro, www.ingame.be)
- Volleybal:

Course content-related study coaching
Course leader: by appointment via e-mail. (frederik.deconinck@ugent.be)
Sport specific coaching:
Basketball: Benny Mertens: Benny.Mertens@UGent.be; Jan Guns: Jan.Guns@UGent.be
Volleyball: Julie Claeyss; Julie.Claeyss@UGent.be
Soccer: Stijn Desmet, sdesmet.desmet@UGent.be
Team handball: Joeri Van De Voorde, Joeri.Vandevoorde@UGent.be
The lecturers can be contacted before and after the practical lessons, or after appointment.

Evaluation methods
continuous assessment

Examination methods in case of periodic evaluation during the first examination period

Examination methods in case of periodic evaluation during the second examination period

(Approved)
Examination methods in case of permanent evaluation

Written examination, portfolio, participation, skills test

Possibilities of retake in case of permanent evaluation

examination during the second examination period is possible in modified form

Extra information on the examination methods

- There are a number (3 to 5) of evaluations (of techniques, performance and theory/regulations) during the academic year.
- Attendance to the practical sessions is required. Illegitimate absence in more than 20% of the practical sessions of one sport will automatically result in a FAIL for this course.
- For basketball the student is required to show his practical competences and theoretical insight in a personal portfolio.

Calculation of the examination mark

**Per discipline/sport:** the mark is calculated by weighing the marks for the practical part and the mark for the theoretical part. The relative weight of mark on the practical part (70%) is larger than for the theoretical part (30%). A mark below 9/20 on the practical part or on the theoretical part will be sanctioned at the level of the discipline. In case of a mark < 9/20 for either the theoretical part or the practical part, both parts have to be retaken.

**Total course:** The total mark on this course is the average of the marks for football, handball, basketball and volleyball.

When a student does not take part in one or more of the evaluations, or when the student is illegitimately absent in more than 20% of the practical sessions, he/she is unable to pass this course. If this is the case and if the total mark is > 10/20, the total mark will be adjusted to 9/20.

Addendum

This course is open for incoming mobility students (Erasmus), but students should have sufficient proficiency to take this course. It is not possible to take both I and II.
