  Credits 5.0  Study time 125 h  Contact hrs 30.0 h

Course offerings and teaching methods in academic year 2020-2021
  A (year)  English  Gent  work placement 30.0 h

Lecturers in academic year 2020-2021
  Van Stappen, Gilbert  LA22  lecturer-in-charge

Offered in the following programmes in 2020-2021
crds offering
  Master of Science in Aquaculture 5 A

Teaching languages
  English

Keywords
  Aquaculture, sustainable management of aquatic resources, internship, training.

Position of the course
  This course covers a training period of minimum 4 weeks in a workplace, other than the educational institute where the student is, or has been registered or employed in the past, and domain-related to the educational program of the student.

Contents
  The student will be engaged in every-day working activities at a level corresponding to their final degree. Upon completion of the internship, the student will write a report and the report will be defended for a jury. In the report students will pay attention not only to the practical work they performed but also to managerial, economical and strategic aspects.

Initial competences
  General biology, chemistry, biochemistry and basic knowledge on aquaculture.

Final competences
  1. The student is able to reflect critically on the experience gained.
  2. The student is able to integrate and participate in the day-to-day-activities of the workplace.
  3. The student is able to analyse the workplace and the activities it undertakes within its economical, managerial and strategic context.
  4. The student is able to give a scientific account of the experience gained in the form of a presentation and a scientific report.
