Position of the course

This course is an introductory course aiming to provide students with insights in the main domains of social psychology and their relevance to sociology.

This course contributes to the following competence training in sociology:

- Taking a reasoned and scientifically based stance on contemporary social phenomena and problems.
- Basic knowledge in the auxiliary sciences of sociology: biology, (social) psychology, economics, law, political science, communication sciences.
- Understanding of a specific auxiliary science of sociology.
- Understanding of social structures, institutional frameworks and processes of decision- and policy-making in political and / or social structures.
- Translating social phenomena and problems into a clear sociological problem.
